SITUATION SUMMARY

Significant Events – National

Investigators Seek Motive Behind Tennessee Shooting Rampage

(Reuters) – Investigators on Friday sought to determine what led a 24-year-old gunman to open fire at two military offices in Chattanooga, Tennessee, killing four Marines in an attack officials said could be an act of domestic terrorism. Mohammad Youssuf Abdulazeed, identified as the shooter by the Federal Bureau of Investigation, was shot to death in the rampage that also injured three people, including a sailor who was critically wounded. The suspect, seen driving an open-top Ford Mustang, first went to a joint military recruiting center in a strip mall and sprayed it with gunfire, riddling the glass facade with bullet holes. The gunman then drove off to a Naval Reserve Center about 6 miles (10 km) away, fatally shooting the four Marines before being shot and killed in a firefight with police. Three others were wounded in the attacks, including a police officer reported to be in stable condition and a Marine. U.S. law enforcement officials said they were investigating whether he was inspired by Islamic State or a similar group. Islamic State had threatened to step up violence in the holy fasting month of Ramadan, which ends on Friday evening. At a news conference late Thursday, Edward Reinhold, special agent in charge of the FBI's Knoxville, Tennessee, division, said investigators had found nothing that tied the suspect to an international terrorist organization.

Crude Oil Train Derails in Rural Northeastern Montana

(AP) – An oil train derailed Thursday in rural northeastern Montana, prompting the evacuation of some homes and leaving at least two of the cars leaking crude, authorities said. There were no immediate reports of injury or fire, but of the 21 cars that derailed only two remained upright, Roosevelt County Sheriff Jason Frederick said. Burlington Northern Santa Fe spokesman Michael Trevino said the train was pulling 106 loaded crude oil cars when it derailed near Culbertson near the North Dakota border just after 6 p.m. MDT. Frederick told The Associated Press that crews are not going too close to the leaking cars until a BNSF hazardous materials team, enroute from Texas, reaches the scene. But he said that there was no immediate threat to public safety. Rail officials declined to specify if the train was hauling crude from North Dakota's Bakken oil patch, where growing numbers of shipments that have increasingly drawn safety concerns. Trains hauling crude from the Bakken region have been involved in multiple derailments in recent years, some causing fires.

Significant Events – International

Thousands Urged to Flee as Typhoon Nangka Hits Japan

(BBC News) – Japanese authorities urged at least 350,000 people to flee as Typhoon Nangka made landfall in southern Japan. It hit the island of Shikoku late on Thursday, bringing torrential rain and winds of up to 185 km/h (115mph). Kyodo news agency reported at least two deaths while broadcaster NHK said at least 31 were injured. Nangka has since weakened and been downgraded to a tropical storm, but officials have warned of continued strong winds and storms in the area. As of Friday morning, the Japan Meteorological Agency warned of high waves, gales and thunderstorms in many parts of the main island of Honshu, as the storm headed north.

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

Hurricane Dolores has begun to dissipate. The current National Hurricane Center forecast has this system pushing off the west-northwest going into the weekend, though it looks to stay well west of Baja. This track is significant and could bring moisture mainly into the southern half of the state late this weekend and into early next week. Central California could see some impacts from this, with some increased monsoonal moisture moving into the area, though this will be focused more toward the Sierras and Kern County.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Stratus and perhaps fog will increase at the coast for the next several days as strong northerly winds over the coastal waters slacken up and go southerly. Seasonably warm weather conditions will persist in the interior through the weekend as a ridge aloft over the northeast Pacific extends toward the coast.

Medford Weather:

The near-term forecast can be characterized as warming and drying, with temperatures generally 5 to 10 degrees above normal Saturday and Sunday, and thunderstorm chances very slim and limited to eastern Siskiyou, Modoc, and southern Lake Counties. The forecast area can then expect lower temperatures and dry conditions until an upper trough nears the region by the middle of next week, bringing a slight chance of showers and thunderstorms.

Reno Weather:

Low pressure from the Pacific Northwest will gradually increase the thunderstorm threat into tonight with near normal temperatures. After a brief break, there is the potential for a cooler and wetter weather pattern for the start of next week.

San Francisco Weather:

Cooler temperatures are expected today and Saturday as an upper level trough from the Great Basin extends into the district. Monsoonal moisture will move into Southern California Saturday and Sunday bringing a slight chance of precipitation to the southern part of the district. Moisture from Hurricane Dolores may bring another chance for precipitation Monday. Warmer and more humid conditions are expected Sunday and Monday.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

A slight cooling is expected today and then temperatures will go down to normal this weekend. Near or below normal daytime temperatures forecast for next week. Tropical moisture from Hurricane Dolores may bring a threat of showers early next week, mainly in the mountains.

Hanford Weather:

A few isolated afternoon showers and thunderstorms will be possible along the southern Sierra Nevada Crest today. Otherwise, sunny skies will prevail with a slight warming trend. Tropical moisture may arrive Saturday and bring a threat of showers and thunderstorms spreading north across the region over the weekend and into early next week.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Remnants of Dolores will pass by to our west over the weekend, bringing with it increasing humidity and cloud cover with the slight chance of thunderstorms across the area through Monday. A cooling and drying trend will start Tuesday.

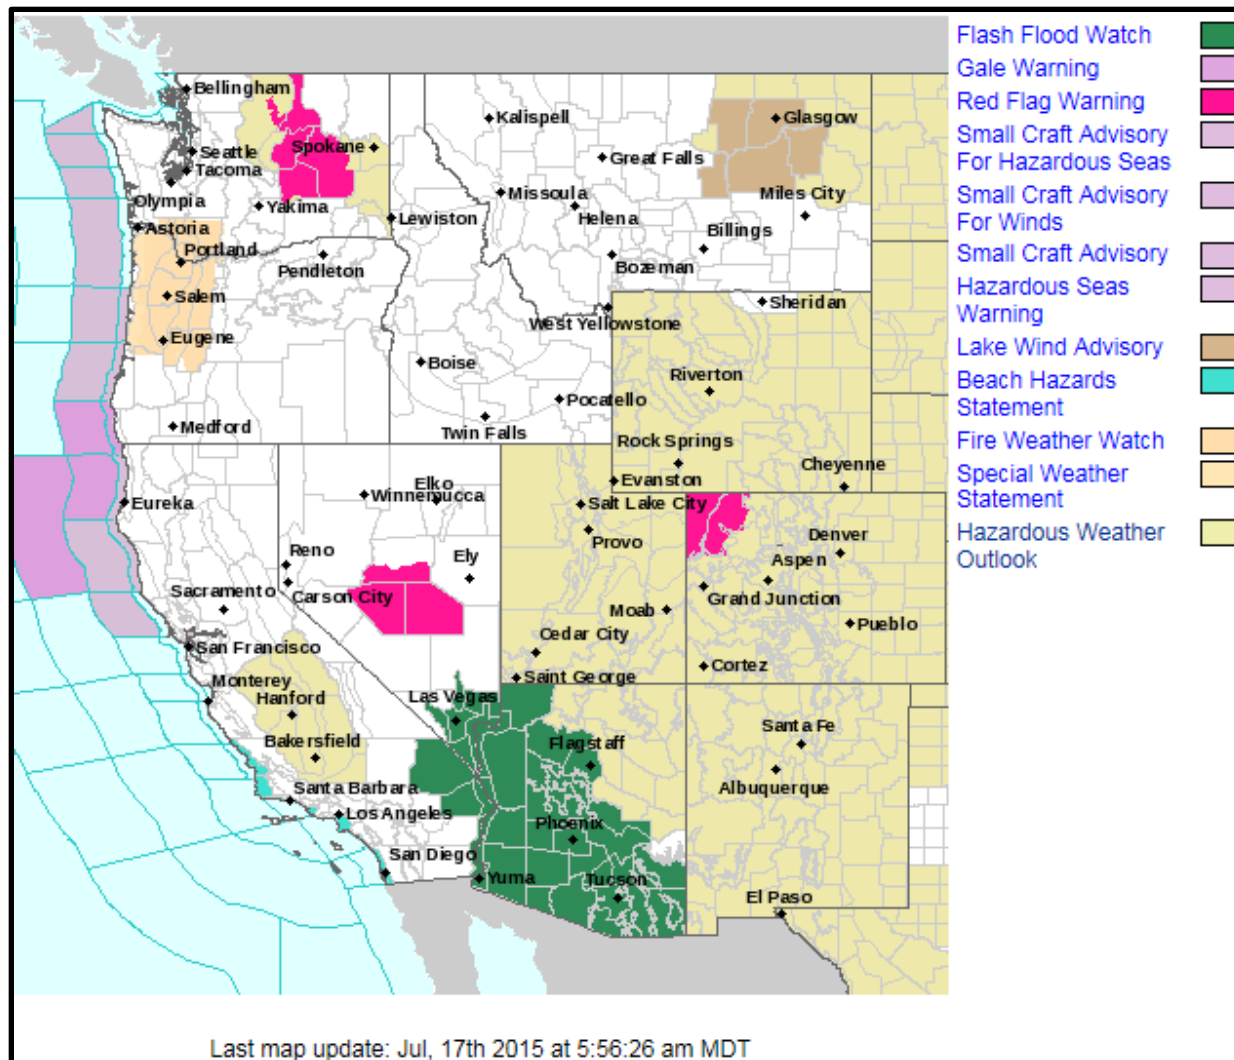

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Areas of night and morning coastal low clouds and patchy fog will continue through late tonight with dry southwest flow aloft today. An influx of tropical moisture from the south beginning late tonight will bring a chance of showers and thunderstorms through the weekend, with a chance of afternoon and early evening thunderstorms continuing for the mountains and deserts for Monday. For Tuesday through Friday, a developing trough of low pressure along the West Coast will bring a return of dry southwest flow aloft and onshore lower level with a return of night and morning low clouds and patchy fog for coastal areas.

Southeast California Weather:

Showers and thunderstorms will become more common across the region today through the weekend as tropical moisture associated with Hurricane Dolores moves into the Desert Southwest. This will also result in cloudy skies and below normal temperatures this weekend. Somewhat drier air will move into the region early next week.

STATE WEATHER MAP

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

SITUATION SUMMARY

NORTHERN OPERATIONS FIRES

Adventure, Vegetation Fire, El Dorado County

Location: Highway 49 north of Marshall Grade, Coloma, north of Placerville

Jurisdiction: DPA, SRA

Start Time: 07/16/15 at 1405 hours

Per Cal Fire as of 07/16/15 at 1908 hours:

- 100 acres grass, brush, 75% contained
- Reduction in acreage due to improved mapping
- Structure threat has been mitigated
- 230 KV power lines in the area
- Per CUEA, the 230 KV lines are presently safe and the grid is stable
- Per the LDO: Law Branch A/C Dan Daily is responding to the Fire EOC
- Per the FDO: All aircraft have been released

SITUATION SUMMARY

SOUTHERN OPERATIONS FIRES

Lake 3, Vegetation Fire, San Diego County

Location: Parallel to Highway 76 in the Lake Henshaw area

Jurisdiction: SRA

Start Time: 07/16/15 at 1130 hours

Per CAL FIRE and the Cal OES Fire Duty Officer as of 07/16/15 at 1752 hours:

- 25 acres, 50% contained
- Continued commitment of CAL FIRE ground resources
- Forward rate of spread stopped
- Line around the fire
- All aircraft have been released
- Structure threat mitigated
- Per CAL FIRE one structure destroyed

Lake, Vegetation Fire, San Bernardino County

Location of Incident: Jenks Lake, Hwy 38, Barton Flats area

Jurisdiction: FRA

Start Time: 06/17/15 at 1600 hours

Per CAL FIRE, Cal OES Duty Officers and ICS-209 as of 07/16/15 at 1834 hours:

- 31,359 acres, 98% contained
- Patrol and monitor. Extinguish visible smokes. Perform suppression repair
- Resources: 180 personnel assigned

Medical/Health

- Until Further Notice - The Mojave Desert Air Quality Management District has issued a Smoke Advisory for Yucca Valley and Morongo Valley due smoke from the nearby Lake Fire.

Proclamations

- San Bernardino County updated their proclamation of a local emergency with a request for a Governor's proclamation and a Presidential Declaration of a Major Disaster. On 7/10/17 at 1320 hours, the CSWC received San Bernardino's ratified proclamation for the Lake Fire

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Recovery/Individual Assistance provided 1,000 copies of the 2015 Drought Brochure to DWR for distribution at the State Fair beginning Friday, July 10, 2015.
- Cal OES Regions (Inland, Coastal, Southern) will consolidate and have one collective OA drought call Monday's at 1100 hours beginning 07/06/15 facilitated by the SOC. Cal OES Director Mark Ghilarducci held a statewide OA drought call on 06/29/15 at 1000 hours.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 58 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 25 Counties: El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 12 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County) and City of Willits (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
